

Beauty, versatility and performance...patterned glass by AFG Industries for your every need.

Reeded [®]

Artists have turned to glass for its intrinsic beauty for centuries. Now, AFG Patterned Glass offers architects, designers and builders the same freedom to create translucent works of art for a myriad of applications. Frequently chosen for its decorative value alone, patterned glass can provide privacy while allowing light to create decorative accents. Whether it is "one of a kind" treatment for a foyer or doorway, or the central focus of a shower or tub enclosure, the smart alternative is our patterned glass. Choose from a large variety - all with the unique ability to separate space while sharing light. AFG Patterned Glass is available in varying degrees of obscurity or diffusion.

Applications:

- Shower doors and tub enclosures
- Patio furniture
- Interior partitions
- Translucent door treatments
- Decorative furniture
- Palladium windows
- Lighting fixtures
- Foyers and vestibules
