- Review Door & Hardware Specification
- Technical Support / Value Engineering
- Estimating & alternates
- Glass: Deductions & In-House Fabrication
- Accurate Door Assembly
- Major Hardware Suppliers

We have a Proven Track Record dealing with:

- Heavy Tempered & Laminated Glass in most thicknesses
- Specialty Hardware: Panic Handles, Vertical Stiles, Custom Headers w/Electric Strikes and Magnetic Locks
- All Hardware Systems: Swinging, Sliding, Telescoping, Stackable, and more.

Laminated Glass

Eastern Glass Resources utilizes a state-of-the-art laminated line and clean room to manufacture laminated glass that conforms to testing standards; ANSI Z97.1-2015, CPSC 16 CFR1201, & CAN/CGSB 12.1-M90.

Our unique process of bonding two or more glass layers with SGP, PVB or EVA interlayers allows us to fabricate high quality glass products for applications that include stair and balcony rails, canopies, windscreens, glass doors, office partitions and more. Let our experienced team assist on projects that require:

- Safety and Security
- Sound Control and Privacy
- Decorative
- Hurricane Resistant glazing

Frameless Shower Doors

Our highly trained Production Team produces excellent quality shower doors with the aid of precision CNC equipment. For added protection, all our doors come with corners and plastic. Frameless Shower Doors are fabricated with:

- ShowerGuard Products
- Patterns – Clear – Tints
- Low Iron Glass
- Satin Acid Etch
- Laminated Glass

Insulated Units/ Tempered Glass

Learn how we can meet your performance and aesthetic requests by combining Low E - Tints - Laminated/Tempered & more.

Approximately four times stronger than annealed glass. Tested in accordance with ANSI Z97.1 & 16 CFR 1201.
